

JASON A. GIOVE

THE WORLD'S FIRST NARRATIVE INTELLIGENCE ADVISOR

AI CLARITY COACH | AUTHOR OF *THE QUESTION THAT CHANGES EVERYTHING*

Jason Giove is the world's first Narrative Intelligence Advisor, helping leaders aim GPT-powered thinking at the single biggest threat to growth: decision misalignment.

Drawing on two decades as an EMT, Jason translates "golden-hour" urgency into boardroom speed—exposing the hidden logic stalling deals, teams, and innovation.

"BEFORE AI AUTOMATES TASKS, IT MUST CLARIFY THINKING."

That's Jason Giove's mantra after 20 years of split-second EMT triage.

Today he brings the same life-saving urgency to leadership, teaching organizations to run Narrative Code Blues on foggy strategies. Using a proprietary GPT prompt set, Jason helps organizations uncover and resolve hidden breakdowns like this:

JASON'S METHOD	THE RESULT
Pinpointing the hidden assumption that's bleeding time or trust	Deals close faster
Rewiring the language leaders use to pitch, persuade, and align	Teams fight less
Installing a real-time Clarity Loop to contain crises early	Culture feels unmistakably alive

Without this work, AI merely automates yesterday's blind spots. With it, leaders turn every meeting into forward momentum, and every quarter into measurable legacy.

A MODERN UPGRADE TO CARNEGIE & HILL

Jason's method is the 21st-century upgrade to Dale Carnegie's people skills and Napoleon Hill's success philosophy—retooled for leaders navigating the complexities of AI, speed, and emotional misalignment.

While Carnegie taught how to win friends, Jason teaches how to win alignment. Where Hill taught Think and Grow Rich, Jason shows leaders how to calibrate the belief systems that drive their actions—and their outcomes.

What Audiences Take Home

A CLARITY
CHECK

A Clarity Check:

Three precision questions to use before any high-stakes meeting or pitch

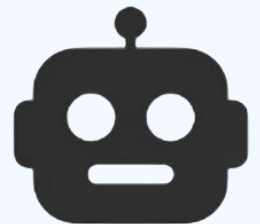

ONE-PAGE
OPERATING
CHARTER

A method for designing a one-page Operating Charter:

a tool for accelerating buy-in and alignment

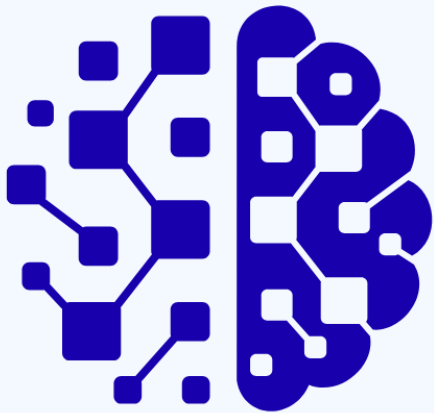

A GPT Prompt Template:

Turns AI into a thinking partner that challenges logic, not just repeats language

GPT PROMPT
TEMPLATE

TALK FORMATS

Keynote

“AI for Better Judgment”

A live walkthrough of how one unseen narrative nearly tanked a deal—and how a five-line AI prompt saved it.

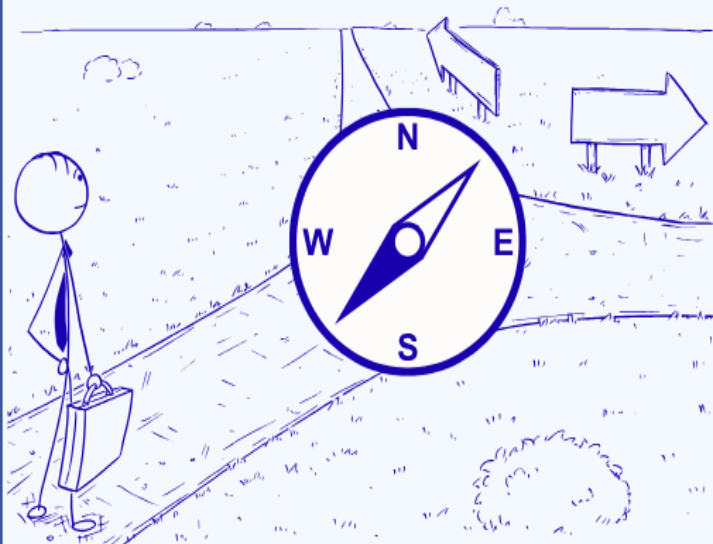

Workshop – “Clarity Sprints”

Real-time application of Jason’s frameworks to current initiatives. Businesses walk away aligned, energized, and 2 weeks ahead of schedule.

Founder Intensive “Legacy Calibration”

A 30–60 day private advisory sprint for leaders entering a defining chapter. Jason helps them reshape their inner narrative and strategic clarity—with AI as a trusted partner.

WHO SHOULD HIRE JASON?

Jason is a standout choice for events where clarity, alignment, and accelerated insight are mission-critical. He's a compelling fit for:

- Leadership offsites and executive summits
- Sales kickoffs, team alignment retreats, and culture reset workshops
- AI and innovation conferences seeking human-centered integration
- Entrepreneurial masterminds and founder events looking for a competitive mental edge
- Personal development stages ready to move beyond mindset and into strategic identity design

If your audience values decision-making, growth under pressure, and responsible use of AI, Jason delivers what no one else can.

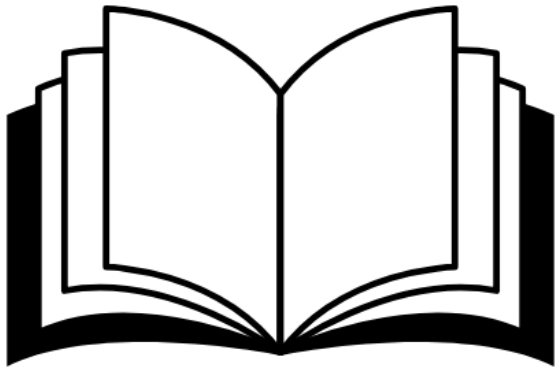

TRUSTED BY...

- Bank of America executive leadership and safety teams

- The City of Houston, national crisis response teams, and international nonprofit groups
- The Deaf community, where Jason actively supports inclusion through ASL interpretation

ABOUT THE BOOK

THE QUESTION THAT CHANGES EVERYTHING (PRIMER RELEASING 2025)

Jason's upcoming book introduces a transformative framework for identifying your Personal Operating System (BOS)—the invisible code running behind your choices, reactions, and results.

Chapters Include:

- ▶ The Question That Changed Everything
- ▶ Narrative Intelligence: The Skill You Were Never Taught
- ▶ Your Belief Operating System (BOS)
- ▶ What Operating System Are You Running?
- ▶ The AI + Advisor Model: The Future of Inner Work
- ▶ Narrative Intelligence in Real Life: Who Got This Right
- ▶ The Story You're Choosing Now

This isn't mindset fluff. It's a hard-hitting lens on how your internal code is shaping your external success—and how to rewrite it using the most powerful tools of our time: Artificial Intelligence and Narrative Intelligence.

WHY IT MATTERS

This isn't about fixing your story.

It's about installing a precision framework for fast, values-aligned decision-making in high-stakes environments.

Jason's talks make GPT usable for both the boardroom and the breakroom.

They are part Carnegie, part Hill, all adapted for a world that's moving faster than humans can think—unless they learn how.

BOOKINGS

Thank You For Considering Jason A. Giove For Your Next Event!

**Unlock the hidden story behind every decision,
with insights from the world's first Narrative Intelligence Advisor
and AI Clarity Coach**
